Time to Change so far

Time to Change West Sussex will build on the work of the national Time to Change movement.

Nationally, Time to Change have coordinated awareness raising and social contact events, national television and media campaigns and have printed and distributed millions of leaflets.

This work has created a reported improvement in attitudes by 3.4 million people since 2007, towards mental health problems.

More than 473 organisations have signed the Time to Change employers pledge.

Time to Change West Sussex is a partnership of organisations & individuals

Our aim is to get West Sussex really linked into this movement by:

- Increasing the number of employers signing up to the pledge
- Recruiting champions to help make West Sussex a place where people are less likely to experience stigma about their mental health in both the workplace and other settings
